CENTRE**

Our Vision

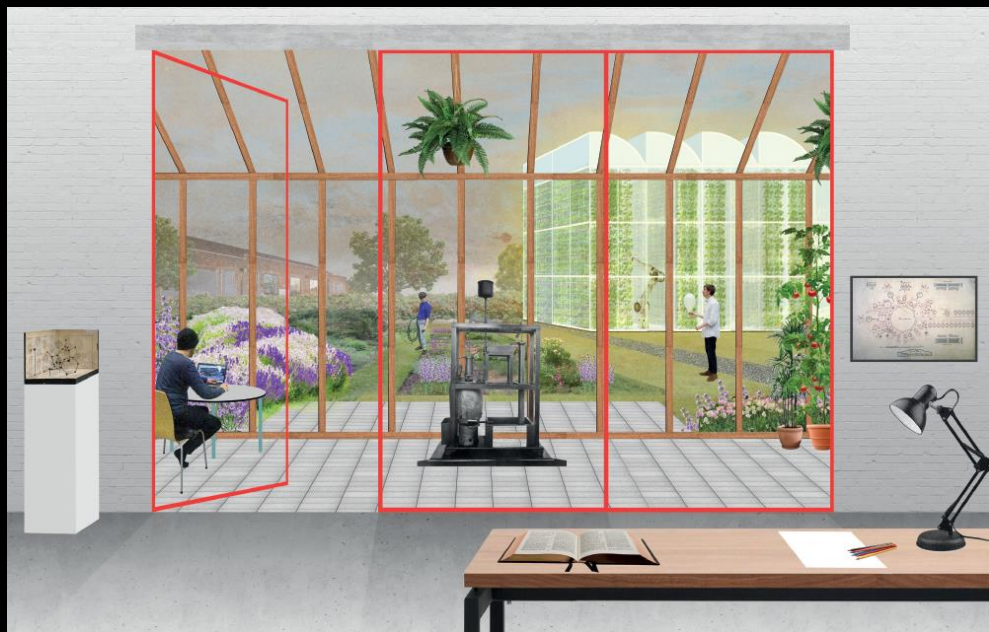

A place for conservation, research and learning

A place to work
and visit

Staff accommodation
Accessibility
Look and feel
Visitor experience
Transport

A place for data management, energy storage, manufacturing and developing new products

A place for testing, filming, research & development

WHAT NEXT?

Looking for commercial partners and development proposals for:

- Cultural/Heritage sector storage
- Renewable energy generation
- Energy storage
- Automotive testing (autonomous & EV)
- Data storage
- Technology R&D
