Future High Streets Fund

- New £33m public transport interchange creating welcoming environment for bus users in single location at heart of town
- SBC secured £25m government grant from **Future High Streets Fund**
- Improves connectivity between train station and town centre, creating safer, more legible route
- Removal of bus station enables delivery of new Cultural Quarter, attracting footfall
- Introduces greenery to area and complements other regeneration schemes
- Anticipated construction period of two and a half years completing in 2024
