# Hub Incubation Project: Maths Evaluation Outcomes

## Did the project have a positive impact on girls' maths anxiety?

For students who reported higher maths anxiety at the start of the project (81% female), there was a statistically significant reduction in maths anxiety over the course of the project.

For the female students in the higher anxiety group, there was a decrease in maths anxiety across every question.

## Did the project increase girls' interest in maths-related careers?

*Maths is useful in lots of jobs:*  
Increase from 25% to 36%

*Maths is useful in creative jobs:*  
Increase from 54% to 62%

*There are lots of maths-based careers in Swindon and Wiltshire:*  
Increase from 84% to 88%

*I am interested in a maths-based career:*  
Decrease from 21% to 17%

# Hub Incubation Project: Maths

- All 8 projects have been detailed in case studies which are being finalised by schools and employers before publication at the end of September.
- 5 videos have been produced, as follows:
  - Project Overview
  - Employer Benefits
  - Impact on Students
  - Effective Partnerships
  - Diversity and Inclusion
- [Watch them all now on YouTube!](#)

## Hub Incubation Project 2:

Does the provision of appropriate resources for parents/carers, increase the overall career readiness of electively home educated (EHE) young people?

- Project Lead in post
- Delivery plan and research methods agreed with CEC.
- Initial survey released to capture opinion/experiences of EHE parents/carers and allow Eol in being part of the co-production team
- Young person's advisory team being recruited.

### What does your future hold?

All young people including those with special educational needs and disabilities (SEND) should be supported to achieve their optimum career outcome.

Having a job is about so much more than just earning money. It's about feeling valued, becoming independent and personally fulfilled. Use the Swindon and Wiltshire Your Futures site today to help support you to achieve career success in the future.
