Green Skills and Jobs Action Plan

Skills and Talent Subgroup

14 September 2023

Goals and Targets

 Swindon & Wiltshire LOCAL ENTERPRISE PARTNERSHIP		
Reference	Goal	Target
GI T1	Ensure we have up-to-date evidence to produce future iterations of our plan that demonstrate economy, efficiency and effectiveness in its delivery.	Repository of reliably-sourced independent data established enabling SWLEP to track development of Green Skills and Jobs locally, nationally and internationally
GI T2		Robust procedures set up to produce 6-monthly reports (31 January and 31 July each year) on the state of play of green skills and jobs in our economy and significant developments outside Swindon and Wiltshire.

Goals and Targets

G2 T1	For Construction and Manufacturing (possibly also Motor Trades and Transport and Storage) ensure demand for upskilling existing jobs is met by the supply of appropriate provision	Audit completed of Construction and Manufacturing (and possibly Motor Trades and Transport and Storage) businesses operating in Swindon and Wiltshire to ascertain the number of jobs requiring upskilling .
G2 T2		Offer from training providers established to upskill workers in Construction and Manufacturing (and possibly Motor Trades and Transport and Storage) that can be delivered immediately from existing resources and identify where bids are required to fund missing provision.
G2 T3		Delivery complete for upskilling required by Construction and Manufacturing (and possibly Motor Trades and Transport and Storage) businesses to meet the Green Skill requirements for Net Zero
G3 T1	For Construction and Manufacturing (possibly also Motor Trades and Transport and Storage) ensure demand for new jobs required by the route to Net Zero is met by the supply of appropriate provision	Audit completed of Construction and Manufacturing (and possibly Motor Trades and Transport and Storage) businesses operating in and/or from Swindon and Wiltshire to ascertain the number of new jobs required by the businesses to meet Net Zero commitments.
G3 T2		Offer from training providers established to train workers in Construction and Manufacturing (and possibly Motor Trades and Transport) for the new jobs required to meet Net Zero commitments that can be delivered immediately from existing resources and identify where bids are required to fund missing provision.
G3 T3		Delivery complete for skills for new jobs required by Construction and Manufacturing (and possibly Motor Trades and Transport and Storage) businesses to meet the Green Skill requirements for Net Zero

Actions, responsibility resources and KPIs

Action	Start	Finish	Responsibility		Resource			KPI
			Name	Organisation	Type	Amount	Source	
Identify sources of data to form repository								Repository established by 31/10/2022 and is known by all partners to the Green Skills Plan
Establish procedures for accessing, downloading and uploading data to secure online repository								
Establish management procedures to add new data, maintain existing content, update content and delete unrequired data		31/10/2022						
Define the structure of the 6-monthly report								Each report produced on time and valued by partners
Liaise with those responsible for GI TI to align data in repository with structure of report								
Establish management procedures to access data in repository, analyse content and produce information for report.								
Produce 6-monthly report	01/11/2022	31/01/2023						
	01/04/2023	31/07/2023						
	01/11/2023	31/01/2024						
	01/04/2024	31/07/2024						
	01/11/2024	31/01/2025						
	01/04/2025	31/07/2025						
	01/11/2025	31/01/2026						
	01/04/2026	31/07/2026
